# TAXATION OF THE CORPORATIONS

Commissioner's Report Shows the Systems Now in Use in Eastern States.

Washington, Aug. 1 .- Commissioner of Corporations Herbert Knox Smith, sub-mitting his report on the taxation of corporations in the eastern States, in which are classed Ohio, Indiana, Illinois, Michigan, and Wisconsin, says that this group differs from the Middle Atlantic group in using much more extensively the general property tax for State revenue. Wiswith alone approaches a reparation of sources of revenue, and its special taxes yield sufficient revenue for ordinary State expenses. Ohio applies special taxes and the general property tax to the same corportions for State purpose. Indiana and Illinois levy practically no special taxes on corporations. Michigan and Wisconoth make elaborate physical valuation of stenm and street rallway property, which, of State administered ad valorem taxes. respect to the taxation of rallroads, gone tory and teaches patriotism as they can it was Bennington county that ture own temporal countries from the most respect earnings method never be learned from the dry pages of nished the governors of Vermont for 31 found that they had acquired a doubtful to the ad talorem tex.
